

OUR STORY

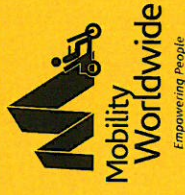

The Mobility Cart is a sturdy, three-wheeled vehicle propelled by hand-crank or pull handle which can be operated by a man, woman or child who is mobility-impaired. The Mobility Cart enables an improved quality of life at work, school and home. Self-propelled units come in large and small sizes while the Pull cart is made for those without adequate upper body strength. More than 60,000 Mobility Carts have been distributed since the organization began in 1994. Each Mobility cart is provided to the disabled at no cost to the individual.

Tens of thousands of people in more than 100 countries will tell you that Mobility Carts provide more than mobility alone. They offer:

- ✓ Confidence
- ✓ Dignity
- ✓ Hope
- ✓ Financial stability
- ✓ Freedom

OUR MISSION

mobilityworldwide.org

Mobility Worldwide seeks to reflect the love of God by bringing mobility and dignity to those in developing countries who are unable to walk.

The Need:

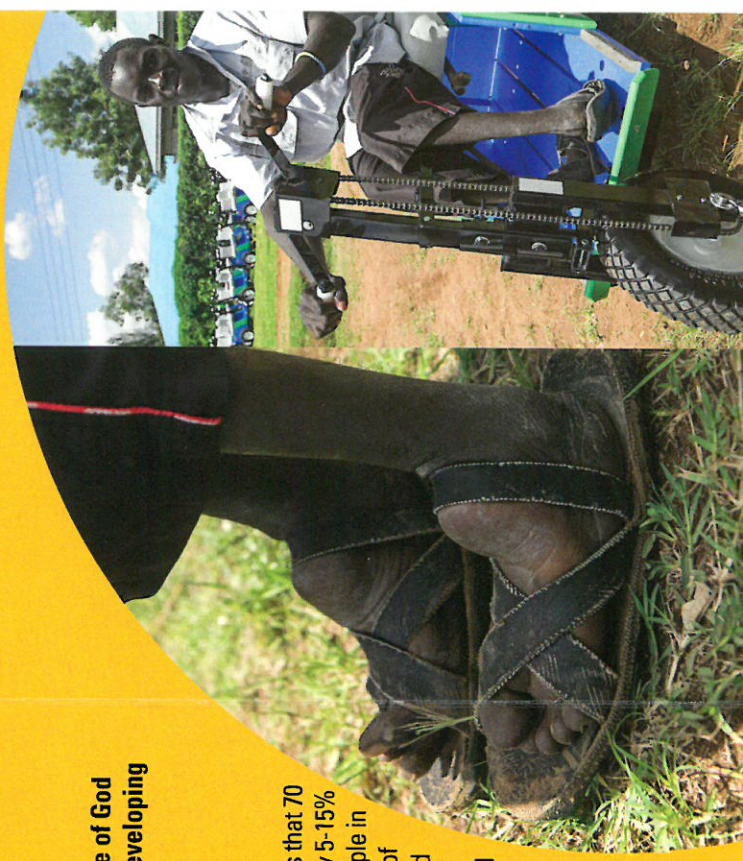

The Need: The World Health Organization estimates that 70 million people worldwide need wheelchairs, yet only 5-15% of people have access. A WHO official states, "People in developing countries often depend on the donation of wheelchairs which are frequently of poor quality and not suitable either for the users or the environment."

The solution? The Mobility Cart! They are designed to go where conventional wheelchairs can't. They're ideal for indoor use or for outdoor environments, especially in rural areas where roads are non-existent or in disrepair.

OUR PEOPLE

MOBILITY CART BENEFITS

- ✓ A child has the opportunity to attend school and receive an education.
- ✓ A family provider can find employment or bring products to market in an effort to provide for themselves and their dependents.
- ✓ Beneficiaries can go to church, the marketplace and social gatherings.
- ✓ Individuals can travel to local health centers for increased access to needed medical care.
- ✓ Pride and dignity are restored as the beneficiary is raised to a comfortable level, facilitating routine interaction with others.

A UNIQUE MODEL

Designed to function in some of the world's most remote regions, the **Mobility Cart** is built on a sturdy wood/steel frame. The vehicle is propelled by a hand-crank or pull handle and is fitted with solid, puncture-proof tires. Every cart is handcrafted by volunteers. Thousands of dedicated volunteers at **Mobility Worldwide** Affiliates, along with refined purchasing practices, enable maximum efficiency in production. Another unique characteristic of the **Mobility Cart** is the compartment used to haul food, produce, tools or other necessities.

A UNIQUE HISTORY

Mobility Worldwide was founded by Reverend Mel West and missionary Larry Hills in 1994. The program is committed to reflecting the love of God by bringing mobility and dignity to those in developing countries. Each **Mobility Cart** is built at one of over 20 production facilities (Affiliates) and donated to distribution partners who handle the shipping, importation and assessment of beneficiaries. The **Mobility Cart** has been deployed in over 100 countries. It is now recognized as one of the most efficient means of restoring mobility to individuals living in developing nations.

GIVE THE GIFT OF MOBILITY

Mobility Carts are three-wheeled, off-road wheelchairs operated by hand power. Built by a faith-based, non-profit, volunteer organization, **Mobility Carts** are delivered at no cost to people in developing countries who are unable to walk due to illness, disease, birth defects or injuries, including those caused by landmines.
